AFIA Feed Education Program Covers Latest Federal Regulations Impacting Animal Food Industry

Gary Huddleston discusses regulatory requirements at AFIA's Feed Education Program.

ATLANTA, Ga., Feb. 1, 2018 – Approximately 100 feed facility managers, operations personnel and mill personnel heard from industry leaders on the latest federal regulations impacting their businesses at the American Feed Industry Association's 11th annual Feed Education Program, held yesterday during the International Production & Processing Expo.

The half-day education program provided attendees with an overview of the latest environmental, food safety and workplace safety rules and regulations affecting the feed manufacturing industry. It also

covered the latest guidance from the Food and Drug Administration on compliance with the Food Safety Modernization Act and provided attendees with information on the tools they need to help their businesses comply with the regulations. In addition, attendees heard about the Institute for Feed Education and Research's latest research project that is analyzing whether certain salmonella serotypes are present in feed as well as a presentation on how plant control systems can assist facilities with FSMA compliance.

“Our industry is constantly evolving to ensure we are producing safe animal food in compliance with all state and federal regulations,” said Gary Huddleston, AFIA's director of feed manufacturing and regulatory affairs. “The Feed Education Program provides a great forum for industry leaders to discuss new technology as well as learn about regulatory compliance requirements for animal food manufacturers.”

In addition to the educational portion of the program, AFIA announced Sanderson Farms of Collins, Mississippi, as the [2017 Feed Facility of the Year](#) award winner. Cosponsored by AFIA and Feedstuffs, this program recognizes overall excellence in feed and ingredient manufacturing operations. Sanderson

Farms earned the industry's top honor based on the company's commitment to safety, employee engagement and its robust metrics tracking to monitor, maintain and increase performance.

IPPE is a collaboration of three shows – the International Feed Expo, International Meat Expo and International Poultry Expo – representing the entire chain of protein production and processing. The annual event is sponsored by AFIA, the North American Meat Institute and the U.S. Poultry & Egg Association.

ABOUT IPPE

The International Production & Processing Expo (IPPE) is a collaboration of three shows - International Feed Expo, International Meat Expo and the International Poultry Expo - representing the entire chain of protein production and processing. The event is sponsored by the American Feed Industry Association (AFIA), North American Meat Institute (NAMI) and U.S. Poultry & Egg Association (USPOULTRY).

ABOUT AFIA

Founded in 1909, the American Feed Industry Association (AFIA), based in Arlington, Va., is the world's largest organization devoted exclusively to representing the business, legislative and regulatory interests of the U.S. animal food industry and its suppliers. The organization's membership is comprised of more than 670 domestic and international companies that represent the total feed industry—manufacturers of commercial and integrated feed and pet food, ingredient suppliers, pharmaceutical companies, industry support and equipment manufacturers. AFIA members manufacture more than 75 percent of the feed and 70 percent of the non-grain ingredients used in the country. AFIA is also recognized as the leader on international industry developments and holds membership in the International Feed Industry Federation (IFIF).

ABOUT NAMI

The North American Meat Institute (NAMI) is the leading voice for the meat and poultry industry. Formed from the 2015 merger of the American Meat Institute (AMI) and North American Meat Association (NAMA), the Institute has a rich, century-long history and provides essential member services including legislative, regulatory, scientific, international and public affairs representation. NAMI's mission is to shape a public policy environment in which the meat and poultry industry can produce wholesome products safely, efficiently and profitably. Together, the Institute's members produce the vast majority of U.S. beef, pork, lamb and poultry and the equipment, ingredients and services needed for the highest quality products.

ABOUT USPOULTRY

U.S. Poultry & Egg Association (USPOULTRY) is the all-feather organization representing the complete spectrum of today's poultry industry, whose mission is to progressively serve member companies through research, education, communication and technical assistance. Founded in 1947, USPOULTRY is based in Tucker, Ga.
