

NUQO[®] Feed Additives Makes Debut Exhibition at IPPE 2026 in Atlanta, USA

Atlanta, USA – January 26-29, 2026 - NUQO Feed Additives proudly unveils its first-ever exhibition at the International Production & Processing Expo (IPPE).

Visit Booth [A2663](#), Hall A to experience groundbreaking solutions and meet our leadership team, including Ewenn Helary (CEO), Guillaume Etave (Global Sales Director), Alan Lara (Manager, Mexico), and Victor Munoz (Technical Manager).

Discover our cutting-edge Technologies:

- **NUQO[®]NEX**: The world's first micro-encapsulated phyto- & phyco-genics, boosting performance while reducing environmental impact.
- **NUQO[®]SAFE**: Double-encapsulation technology to control pathogens in farms and food chains.
- **NUQO[®]RED**: A powerful anti-inflammatory solution.
- Palatants & Antioxidants: NUQO[®]Yummy, Sense, and Flex - for feed appeal & quality.

Engage with us! Industry professionals, partners, and customers are invited to explore collaborations and innovations. For media inquiries or to schedule a meeting during IPPE, please contact: info@nuqo.eu

About NUQO Feed Additives NUQO[®] is a leading provider of **sustainable, high-performance feed additives**, committed to advancing animal nutrition, food safety, and environmental responsibility through innovative technologies.
