

## NUQO<sup>®</sup> Showcases Sustainability Leadership with Life Cycle Analyses for Flagship Products at IPPE.

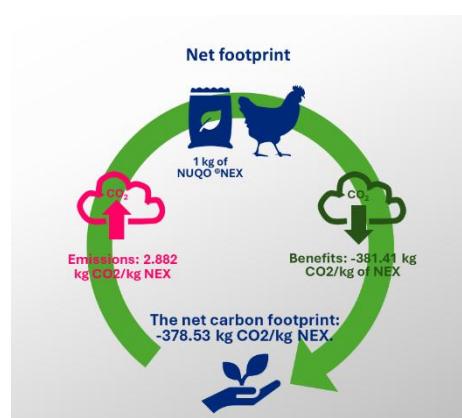

Atlanta, USA – January 26–29, 2026 / NUQO<sup>®</sup> Feed Additives is excited to present **Life Cycle Analyses (LCA)** for its flagship products, **NUQO<sup>®</sup>NEX**, **NUQO<sup>®</sup>SAFE**, and **NUQO<sup>®</sup>RED**, at IPPE 2026.

These analyses highlight NUQO<sup>®</sup>'s dedication to sustainability, transparency, and environmental responsibility in animal nutrition.

Our innovative technologies, including micro-encapsulation and targeted release systems, are engineered to enhance animal health and performance while minimizing environmental impact. By optimizing feed efficiency, reducing waste, and improving resource utilization, NUQO<sup>®</sup>'s solutions contribute to a more sustainable future for animal protein production.

**Visit Booth A2663, Hall A** to learn how NUQO<sup>®</sup>'s science-backed approach delivers measurable sustainability benefits. Connect with our team to explore customized solutions that align with your environmental and performance goals.

Join us at IPPE 2026 to experience the future of feed additives. For meetings or inquiries, contact [info@nuqo.eu](mailto:info@nuqo.eu).
