## **OMCO SUMO Showcases SUMO-LYNX™ Innovations at IPPE 2026**

OCONOMOWOC, Wis., January 2026—OMCO SUMO, a manufacturer of specialty bearings, chains, and complementary components purpose-built for agriculture and food processing industries, will exhibit at the International Production and Processing Expo (IPPE) in Atlanta from January 27 to 29 at the Georgia World Congress Center.

Located in Hall B, Booth 43079, OMCO SUMO will showcase products from its proven portfolio of more than 3,000 designs, including SUMO-LYNX™ conveyor chain and components. These products are specifically engineered for modern protein processing—including conveyorized harvest, eviscerations, cut-up, and chill lines—delivering durability, food safety, efficiency, and long-term value that operations depend on. OMCO SUMO will also debut plastic and stainless steel shackles at IPPE this year.

Bobby Burns, Maintenance Planner at Case Farms, shared his experience partnering with OMCO SUMO, “The OMCO SUMO team understands the industry, and our representative is well-respected. I appreciate the in-person support and that we’re working with just one person. Plus, the quality of their product is impressive, and it’s provided real long-term value for us.”

“As we mark our first year at IPPE, we’re excited to engage with industry leaders about where the market is headed. By expanding our domestic capabilities, we’re delivering greater supply chain control and consistency with U.S. content. In an increasingly demanding industry, our motion solutions help customers keep moving with confidence,” said OMCO SUMO President, Kyle Stoehr.

### **About OMCO SUMO**

OMCO SUMO is a global OEM manufacturer and supplier of bearings, engineered chain, and motion-related components, with a strong focus on ESG and sustainable sourcing. Founded in 1964, OMCO SUMO leverages more than 60 years of experience and a global supplier network to help customers meet performance, value, and sustainability goals. As the first and only provider of proprietary ESG ratings in the power transmission industry, OMCO SUMO supports transparent, values-driven sourcing that advances people, profit, and planet.
