PlusVet Animal Health to showcase its phytogetic based solutions at IPPE and deliver a Techtalk

We are thrilled to announce our participation in the International Production & Processing Expo (IPPE), the world's largest annual gathering of poultry industry professionals. We will be showcasing our innovative line of phytogetic-based solutions for poultry production, designed to enhance animal health, welfare, and productivity while promoting sustainable practices.

Our products are derived from natural plant extracts and are formulated to address specific challenges faced by poultry producers, including gut and respiratory health, egg and meat quality, and oxidative stress.

PlusVet Animal Health's Operations Director to Deliver a Techtalk

In addition to showcasing our products, our Operations Director, Teresa M. Agulles, will deliver a Techtalk, titled "Use of natural antioxidants to improve egg and chicken meat quality."

Day: Wednesday, January 31st

Time: 12:00 PM

Theater: A Hall, Booth A244

Title: Use of natural antioxidants to improve egg and chicken meat quality

"We are excited to share our expertise and passion for phytogetic-based solutions with the IPPE audience," said Teresa. "Our commitment to innovation is driving the development of products that address the evolving needs of the poultry industry."

Come and meet us at booth A3051.
