

## FOR IMMEDIATE RELEASE

### Stainless Motors Inc. to Showcase Innovations at IPPE 2024 in Atlanta

Stainless Motors Inc., a pioneer in delivering best-in-class stainless steel products engineered for extreme conditions, will be unveiling cutting-edge, patented technology designed to mitigate contamination and reduce risk liability at the International Production & Processing Expo (IPPE) 2024. The event is scheduled to take place from January 30 to February 1.

As a leading industry leader in stainless steel constructed motors and gearmotors, Stainless Motors Inc. stands as the sole manufacturer of stainless washdown Explosion Proof (XP) motors, specially crafted for use in locations where hazardous liquids, vapors, or dust pose a threat.

#### Key Offerings at IPPE 2024:

- **Innovative Technology:** At Stainless Motors Inc., we are at the forefront of technological advancement, introducing patented solutions that redefine industry standards. Our commitment to innovation drives us to develop cutting-edge technologies that set new benchmarks for excellence.
- **Introducing Sanifan PLUS Series:** The sealed construction prevents the ingress of contaminants, ensuring optimal performance in challenging environments. For industries requiring equipment that can endure and excel in harsh cleaning conditions, the Sanifan PLUS Series stands as the epitome of reliability and performance. The unique sanitary features of our Sanifan Motors include:
  - *Polished crevice-free stainless fan on our Totally Enclosed Fan Cooled (TEFC) models.*
  - *EPDM sanitary fan shroud standoffs.*
- **Explosion-Proof Motors (XP):** We take safety and performance to the next level with our patented Explosion-Proof (XP) motors. Engineered for excellence, our XP motors deliver unmatched performance in environments where safety, sanitation, and washdown tolerance are of utmost importance.  
*Applications: Chemical Processing-Pharmaceutical Manufacturing-Food and Beverage Production.*
- **Inline, Right Angle, Spiral Bevel and Spiral Bevel Tubular Gear Reducers:** Ideal for high ratio, high power requirements across various industries. Optimized for maximum power transmission and minimal energy loss.
- **Pancake Motor:** Our shaft-up, short stacked, motors for tank mixers. Despite its compact size, the motor delivers impressive torque for demanding applications. Its versatility and efficiency make it a standout solution for a wide range of applications, contributing to increased cleanliness, productivity, and performance.
- **Partnering for Success:** When you choose Stainless Motors Inc., you are partnering with a company dedicated to pushing the boundaries of what's possible. Our innovative technologies are designed to elevate your operations, enhance efficiency, and drive success.

Here, at Stainless Motors Inc. We are excited to showcase our latest advancements at IPPE 2024. Our products not only exemplify industry-leading technology but also adhere to the highest standards of cleanliness, durability, and efficiency."

**Event Details:**

**Date:** January 30, 2024 - February 1, 2024

**Location:** Georgia World Congress Center. 285 Andrew Young International Blvd NW.

**Visit Our Booth-Explore Cutting-Edge Solutions:** We invite you to visit our booth, where we'll showcase a range of cutting-edge products designed to elevate your industry standards.

**Exclusive Offer:** Use our limited promo code (**EX1133**) for complimentary access to the expo. It's our way of expressing gratitude for your continued support. Find us easily at IPPE 2024 by following <https://lnkd.in/gTancuwG> to locate our booth on the event floor.

**Built to Order, Tailored to Perfection:** At Stainless Motors Inc., customization is our commitment. All our products are built to order, enabling customers to select options that align with their unique requirements. Unlike stock models offered by other manufacturers, partnering with SMI means having a motor or gear motor tailored to your specific needs.

**About Stainless Motors Inc.:** Established in 1988, Stainless Motors Inc. revolutionized the industry by introducing the first stainless steel washdown motor. Over the years, our portfolio has expanded to include stainless gear reducers, gear motors, and flexible couplings, meeting the growing demand for high-quality stainless products.
