## **Datacor to Showcase Animal Nutrition Solutions at IPPE 2026**

**Florham Park, NJ, December 2025** – Datacor, a leading provider of process manufacturing, chemical distribution, and engineering software, today announced its participation in the International Production & Processing Expo (IPPE), taking place January 27-29, 2026, in Atlanta, Georgia. Datacor will be located at Booth #A311.

At IPPE 2026, Datacor will showcase its animal nutrition solutions for animal feed and pet food manufacturers. The solutions help manufacturers protect margins, ensure compliance, and deliver precise, cost-effective nutrition across their operations.

Visitors to the Datacor booth will learn how the company's solutions support:

- Precise, cost-optimized formulation to improve quality and animal performance
- Increased operational efficiency through streamlined workflows and reduced manual effort
- Stronger compliance and traceability with audit-ready processes across every production site

IPPE is the world's largest annual poultry, meat, and animal food industry event, bringing together global leaders, innovators, and solution providers. Datacor looks forward to connecting with industry professionals and demonstrating how its technology helps manufacturers turn complex process challenges into operational success.
