Nebraska, United States

## Guardian Launch a Unique Vision Safety Skinner.

Guardian revolutionize safety in the meat processing sector launching the world's first vision activated Skinner .

Are you struggling with ongoing injuries on open-top Skinners. Guardian is delivering a new product this year at IPPE that will remove this risk from your business. The Guardian Skinner is the first commercially available skinner that uses vision safety technology, preventing an accident rather than reducing the damage with industry leading stopping time.

- Our equipment is running globally in several of the world's largest packer/processor operations.
- More than 1M combined run hours
- Guardian is the only safety equipment manufacturer with a ZERO injury record**

Contact us to set up a time to meet or come and see the friendly Guardian Team at Booth **C17195**.
