

**FOR IMMEDIATE RELEASE**

**Meritech Helps Companies Improve Employee Hygiene GMPs — with Automated Handwashing and Footwear Sanitizing Technology**

**GOLDEN, CO** – Meritech, manufacturer of the world’s only fully-automated, touch-free handwashing systems will exhibit at the 2018 IPPE tradeshow in Atlanta, GA Jan. 30-Feb 1 at booth # C870. Meritech will equip its booth with CleanTech fully automated handwashing systems and footwear scrubbing/sanitizing equipment so attendees can experience the world’s only technology-based approach to employee hygiene. Meritech will also be introducing new products at IPPE and will have new products featured in the booth.

Meritech offers a full line of products designed to meet increasingly stringent food safety standards and regulations related to employee hygiene. All CleanTech automated handwashing systems deliver an effective 12-second wash and rinse cycle, removing 99.98% of dangerous pathogens. Meritech products use 75% less water, require less soap, and reduce discharge waste, compared to equivalent CDC recommended manual handwashing.

“Listeria, salmonella, e. coli and other pathogens present enormous risk for food processors today, and the poultry and meat industries are being held to higher food safety standards than ever before.” Said Michele Colbert, president of Meritech. “Effective employee hygiene practices and SOP’s are the first line of defense in preventing the spread of pathogens inside food production areas. Our technology based approach to hygiene, which includes both hand and footwear sanitizing, is being adopted world-wide as the gold standard in employee hygiene protocols. We have recently introduced new products that simultaneously provide a guaranteed hand wash and guaranteed footwear sanitizing, plus other new products that will be demonstrated at the show.”

Meritech automated handwashing and footwear sanitizing systems guarantee clean hands and sanitized shoes in 12 seconds. Getting employees back to work faster. All Meritech products are designed and manufactured in Golden, Colorado and are backed by a five year warranty.

**About Meritech**

Meritech offers a complete line of fully-automated handwashing and boot scrubbing machines that provide the only technology-based approach to employee hygiene in the world. Meritech helps companies with their employee hygiene, bioburden control, and infection prevention programs in a wide variety of markets, including food processing, food production, commissaries, food service and retail, cleanrooms and cruise lines. All Meritech systems are 100% made in the USA and are sold globally. Visit [www.meritech.com](http://www.meritech.com) to learn more.
