Since 1999, Farm Alarm Systems has been the alarm/monitoring system of choice for thousands of growers across the US.

The FarmAlarm IV Wireless Monitoring System Monitors:

- **Power**
- **Temperature**
- **Water Pressure**
- **Feed Over Run**
- **Generator (Start/Stop)**
- **Automatic call to grower when controller is in alarm state**

Additional Options Include:

- **External Horn/Siren**
- **Additional Temperature Sensors**
- **Feed Monitor Sensor Kit**
- **Generator On/Off Monitor**
- **Wireless Remote Buzzer Alarm (wireless) that will alarm in a home or building within 1500 ft. of the Farm, even when all phone service is down. (New to Industry)**
