Introduction

When feeds exposed to water, they fall apart and deteriorate, then not only costly ingredients were wasted, but the feed residue pollute pond bottoms that leads to extra problems. "Water stability" is a unique requirement shrimp feed producers face, that is how to maintain the integrity of pelletized feeds in an aquatic environment.

Magicoh Pellet Binder, a spray-dried urea-formaldehyde resin in powder form, provides a cost efficient solution to your binding requirements, which improves the water resistance of your shrimp feed and finally improves your return on investment, and minimize pollution problems related with feed residue.

Ingredient

Polymethylolcarbamide

Benefits

- ☑ Improve water stability of aquatic feed.
- ☑ Improve hardness of poultry and swine feed.
- ☑ Improve feed integrity of finished feed.
- ☑ Low inclusion so save more space for precious ingredients.
- ☑ Reduce dust and feed losses
- ☑ Reduce trucking and storage cost.

Indication

Magicoh® Pellet Binder is specially recommended for use in aquatic pellet feed to improve its water durability.

It can also be used in poultry, swine and cattle feed to reduce dust and improve hardness.

Recommended Dosage

Add Magicoh® Pellet Binder directly into the feed mixer before pelletizing and extrusion process at the following recommended rate depending upon feed formulation and processing conditions.

Feed Type	Magicoh® inclusion (kg/ ton of feed)
Shrimp Feed	2.0 - 6.0
Fish Feed	2.0 - 4.0
Animal Feed	1.0 - 2.0

Storage

Stored in a ventilated and dry place. Avoid direct sunshine. Use up after the package is opened.

Packing

Packed in 25kg cartons or bags. Client's private label is acceptable.
