

Hangzhou De Mark Industrial Co Ltd

PRESS RELEASE
date:29/Dec/2018

Booth: **A3049**

Hangzhou DE Mark Industrial Co Ltd is established in late 2017 with ten registered employees. We are committed to export trading of veterinary pharmaceutical raw materials (APIs), feed ingredients and specialty additives and supplements for pigs, poultry, ruminants, and fish/shrimp as well. We are currently represented in twenty-plus countries around the world.

OEM business is expanded to cater the growing overseas demand for the medicated and nutritional premix in pellet, coated granule and solid solution. These premix processed by innovative technology are proved to gain improved stability, palatability and efficiency.

OUR TECHNOLOGIES & PRODUCING CAPACITY

Solid Solution : 500MT/a
Coated Microparticle : 500MT/a
Sustained-release Microcapsulation : 1000MT/a
Enteric Coating : 500MT/a

We have rich experience in supplying mixed FCL to clients, that is to combine up to 15 different products from separate manufacturers into one 20 feet container in our warehouse.

At this stage of IPPE exhibition, we strongly recommend our supplies as follows:

FLORDIS --- Florfenicol premix 5%, 10% and 20% in various forms

[TILMIPRO](#) --- Tilmicosin (base & phosphate) premix 20% in various forms

VITADIS --- Vitamin E premix 50% general powder and CWS powder, and
Vitamin E + Se emulsion

3 ESSENDIS --- Protected essential oils

[MAGICOH](#) --- All purpose pellet binder

Click above link to our website page for more details, or write to us for product catalogue and leaflet, and welcome to visit us at booth no. A3049 during IPPE exhibition 12-14/Feb/2019.

We care for profit concern of our customers and better life of people.
