

PRESS RELEASE: FOR IMMEDIATE RELEASE

IPPE 2017 Booth #B5975

Industrial Repair Service to Host Golden Ticket Event at the International Production & Processing Expo (IPPE), Jan. 31-Feb 2, 2017

Cumming, Georgia, USA, January 4, 2017 - Industrial Repair Service is excited to be exhibiting at the International Production & Processing Exposition this year in Atlanta, GA. The team will be on-site showcasing the company's products and services.

On February 1st, be sure to stop by their booth, #B5975, anytime between 1-5pm, as the company will be hosting an event which will require a golden ticket for entry. During this event, representatives from Industrial Repair Service will be addressing some of the challenges within the automation and production industry and will highlight cost effective solutions that could save your company money. For more information about obtaining a FREE golden ticket for the event please email media contact.

About Industrial Repair Service

Since 1990, Industrial Repair Service has been a leading service provider for repairs within the manufacturing and automation industry. Industrial Repair Service offers a full range of services and labs to include: Servo Motor Lab, Metal Detector Lab, Hydraulics & Valve Lab, Electronics Lab, Servo System Testing and Load Center Testing. With four locations across the United States: GA, AZ, IL, and TX, Industrial Repair Service has the ability to service and repair most manufacturers and models while specializing in old and obsolete equipment. Primary markets served include plastics, food processing, steel, textiles, paper, printing, automotive, glass, furniture, wood, tobacco, metal, wind power, rubber, leather, chemicals, refineries, and water treatment facilities.
