J&D Manufacturing to release two new products that focus on safety and efficiency

EAU CLAIRE, WI – December 27, 2017 – *J&D Manufacturing is excited to announce its newest additions to its family of products – The 72” Mega Storm II Torque Drive Fan, and the New Gearbox Inlet Machine.*

The 72” Mega Storm II Torque Drive fan is the first exhaust fan of its size with no belts, pulleys, or tensioners. It is the highest performing exhaust fan – 46,225 CFM at .10SP and it still meets the 20.3 CFM/Wt. requirement for many energy rebates. Farmers will enjoy virtually no maintenance issues with this fan, and they’ll enjoy the increased efficiencies this fan produces.

The New Gearbox Inlet Machine is the most robust curtain and inlet machine on the market today. We’ve included an instant reverse motor to automatically change directions. We’ve also added an internal safety function to prevent limit switch overrides among other safety features. The gearbox has a 2,000 lb. capacity. With its compact size and lighter weight, installation and placement will be a breeze.

J&D Manufacturing continually strives to put the best products on the market. Safety and efficiency stay at the top of mind when designing new products. This hasn’t gone un-noticed. Recently, J&D’s 72” Mega Storm II Torque has been selected as a winner for the 2017 World Ag Expo’s Top-10 New Products. During the World Ag Expo in February, J&D will be recognized during the Awards Ceremony.

J&D Manufacturing, Inc. is a quality manufacturer and international distributor of ventilation and equipment products for agriculture, horticulture, industrial and commercial applications. We bring together competitive price, unmatched quality and total system solutions. J&D values our commitments to our customers and our worldwide dealer network. Our professional team of ventilation specialists and engineers are dedicated to new technology and the manufacturing of energy-efficient and safe products that are built to last. J&D has been delivering quality products at competitive prices for over 35 years. Log on to www.jdmfg.com for more information.
