

ALFATROL

KANZY MEDIPHARM

ALFATROL POWDER

IMPROVE NATURALLY
PRODUCTIVITY FOR
LIVESTOCK AND POULTRY

THE BEST MYCOTOXINS BINDER

ALFATROL is an all natural feed additive composed primarily of a high *Saccharomyces cerevisiae* strength live yeast culture and its cell wall extract mixed with microbial fermentation extracts to reduce mycotoxins in feed and enhance fiber digestion, feed efficiency, weight gain, and overall health for all species.

- **Mycotoxin binding:** The synergistic blending of 2 mycotoxin binders (Clinoptilolite and Esterified Glucomannan) provides the most effective and broad spectrum adsorption of all prevalent mycotoxins.

- **Enhances immunity:** β 1, 3- β 1, 6-D-Glucans can increase non-specific host resistance to a variety of bacterial, fungal, parasitic infections due to mycotoxicosis by activating the large immune system cells (macrophages).

- **Proliferation of beneficial bacteria:** Probiotics present in Alfatrol at effective level contribute to replenish essential microflora and decrease the incidence of gastrointestinal disorders by preventing pathogenic bacteria from settling in the intestinal tract by competitive exclusion.

- **Improves Feed Efficiency:** ALFATROL includes a high potency of multiple digestive enzymes which can downgrade complex molecules to simple available nutrients.

COMPOSITION

Saccharomyces cerevisiae with its Fermentation Extract and Fermentation Solubles, *Bacillus subtilis* with its Fermentation Extract and Solubles, *Aspergillus oryzae* and *Aspergillus niger* Fermentation Extracts, Clinoptilolite, Seaweed Extract, minerals, Enzymes, vitamins. *Yucca schidigera* extract.

GUARANTEED ANALYSIS

<i>Saccharomyces cerevisiae</i> :	min. 1 billion CFU/kg
<i>Bacillus subtilis</i> :	min. 1 billion CFU/kg
Crude protein:	min. 28%
Crude fat:	min. 1.5%
Crude fiber:	max. 10%

PHYSICAL AND CHEMICAL CHARACTERISTICS

Light to medium brown powder with strong and pleasant yeast aroma.

DIRECTION OF USE

Cattle: 5g-8g per head per day

sheep: 2g per head per day

Swine: 250g-500g/MT of finished feed

Poultry: 250g-500g/MT of finished feed

Ostrich: 500g-1000g/MT of finished feed

Horse and Camel: 10g-15g per head per day

KANZY MEDIPHARM

Alfatrol powder®

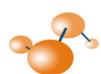

PACKAGING:

Alfatrol powder is available in 10, 25 kilograms poly-lined paper bags.

STORAGE:

Store in cool and dry place with no direct sunlight.

Alfatrol powder is stable for 2 years in dry and cold place.
