

Who we are

MasterChem is an international trading company, which begins with the passion and drive of its founders in Dalian City ,LiaoNing Province , P.R.China in 2000. The high expectations and work ethic of our group has fueled our growth for over a decade. With markets constantly changing,MasterChem eagerly continues to adapt and offer new and existing business partners a simple and profitable way of doing business.

We count with a team of experts dedicated to the export of products (Feed & Food Ingredients; Petrochemical;Inorganic & Organic chemicals) worldwide. We bring global exports, professional logistics, and exceptional service to our customers. MasterChem's expertise and the collaboration of our affiliated companies allow us to provide extensive alternatives for our customers globally.

Mission & Vision

Our mission is solid and timeless: To professionally market and distribute our products while thoroughly satisfying our customers requirements for various chemicals raw materials supply.

We envision MasterChem continuing to provide manufacturers and suppliers alternative channels to promote and distribute their products. A place where our customers can develop ideas and find solutions for their necessities. Inspiring our employees to be the best that they can be in a work environment where they can find continued career growth.

Marketing and Procurement

MasterChem is a marketing organization encompassing market awareness. Our team of traders knows and understands the markets we serve. This provides our suppliers and customers with cutting edge service and opportunities. From our beginning, MasterChem has built a solid reputation by promoting the growth of solid business relationships. We help purchasers trace and understand their current supply base as well as aid with product development and global sourcing of any of your needs.

Transportation

MasterChem handles all shipping requirements for both inbound and outbound activity. We accept a transaction as completed when the product reaches its final destination intact and on time. We utilize all modes of transportation from steamships and planes to deliver goods. MasterChem promises only what we can deliver.

Documentation

Our detailed and dedicated professionals are well prepared to handle the necessary documentation from the initial order through the delivery of each shipment. MasterChem's business partners can rest assured that we provide accurate documentation for all orders in a timely and efficient manner.

Finance

As a true marketing and distribution company, MasterChem buys and takes legal possession of all the products we trade. This assures the foreign buyer of our direct responsibility for the product under contract, and assures our supplier of timely, no-risk payments. MasterChem has worked with integrity over the years to earn the trust of buyers, suppliers and financial institutions, and has built a reputation as a financially strong corporation.
