**Skaginn 3x signs contract with Greek leading poultry processor TH. NITSIAKOS AVEE Poultry Enterprise for Automatic Plate Freezer.**

For Nitsiakos, product quality is at the forefront. Their 40 years of experience have made them one of the leading producers of chicken products. Their vertically integrated chicken production system, covers the entire process from reproduction, hatching, fattening, poultry production, slaughter and processing.

The new Automatic Contact Freezer from Skaginn 3x will be integrated with their new MDM processing line. The integration is to be coordinated by NA Makelis Food Processing Systems.

In addition to boosting capacity of 75 tons for a single freezer, it ensures short freezing and loading time securing highest product quality.

Skaginn's 3X form freezers come in various sizes and provide outstanding product quality. They are also energy efficient which is important to Nitsiakos, as they continually strive to reduce their carbon footprint.
