

Ottevanger Milling Engineers is a leading global supplier of production equipment and processing lines for the grain processing and compound feed industry.

Founded in 1909, Ottevanger Milling Engineers is today still an independent, privately owned, successful Dutch company, managed by the fourth generation of the Ottevanger family.

At our modern and well-equipped manufacturing facilities in Aalten and Moerkapelle in the Netherlands, Ottevanger designs and produces a comprehensive range of process equipment incorporating to the latest standards and techniques.

Our expertise lies in; engineering, production and installation of machinery and complete installations in the dry-cereal and grain processing industry such as:

- Feed mills
- Premix and concentrate plants
- Aqua feed and Pet food installations
- Cereal processing lines
- Biomass installations

We continuously support and create solutions for our partners in their effort of producing the best result in their local environment. Through close partnerships we create customized local solutions to meet the requirements of our partners.

Ottevanger Milling Engineers in America

Over the last 20 years Ottevanger Milling Engineers built many high quality Conventional and Containerised Mills across North and Latin America. Containerised(modular) systems ,a unique concept developed by Ottevanger, are designed in a modular way, and normally contain all the plant equipment, electrical installation and process control equipment, assembled, tested and installed into support structures the size of one or multiple standard 20-foot shipping containers.

Advantages of a Containerised System:

- All components are reliable and tested
- Minimum installation time on site
- Low freight costs and easy handling
- Complete with support frame
- Complete with all electrical and compressed air systems
- Assembled and checked in factory before despatch
- Saving on civil and building costs
- Low energy consumption
- The plant can be erected in a short timeframe
- Easily to expand

The best solutions are the result of close cooperation with our customers, from the initial stage up to the successful commissioning and handover of the project.

The accumulated knowledge and experience of more than 100 years determine the quality of design, equipment and installations of Ottevanger Milling Engineers and its efficiency and reliability.
