## **\*NEW\* PTI Now Offers Stainless Steel End Caps for Added Food Protection**

Charlotte, NC– USA: Industrial power transmission parts manufacturer P.T. International Corp. (PTI) now offers open and closed stainless steel end caps to fit all its stainless steel housings.

Stainless steel end caps help protect bearings from contamination, provide a more consistent and sleek look, and offer added safety because they are detectable by metal detection.

PTI also offers custom laser etching services ideal for private branding. Stop by our IPPE booth at **C1350** to view product samples and learn more.

*Top: Open and closed stainless steel end caps  
Bottom: Two-bolt flange with laser etched end cover*

## About PTI:

Upon opening in 1994, PTI has specialized in serving the growing niche market of Metric products. As demand has increased over the years, so has our product offering. Today, our customers enjoy a huge selection of both Metric and Inch-based products for the Poultry, Food and Beverage Industries.

PTI components are built to withstand the most demanding environments and harshest conditions to maximize equipment life and production needs.
