NEW to IPPE: Structures last longer with Polycarbonate and PVC wall and ceiling panels from Palram Americas.

Visit us at **Booth C3651** for a closer look!

Through decades of producing polycarbonate and PVC products, both here and abroad, Palram Americas is helping you control costs! We manufacture quality natural daylighting products to help reduce energy costs, and PVC cladding that will not rust or deteriorate like metal cladding. In addition, Palram PVC combats weathering, animal waste and chemical issues. The result? Worry-free, long lasting agricultural structures.

Here are some products you will see at Palram America's booth C3651:

Duraclad™, Palram's interlocking wall and ceiling liner panels are multiwall-structured for superior rigidity and strength. Tongue & groove edges make for rapid installation with hidden fasteners for a clean, smooth finish. Use it for interior cladding on all types of structures. See why Duraclad is different! Stop by our booth!

Smooth, bright white surface is chemical, mold, bacterial and water resistant.

DURACLAD™
PVC Interlocking Liner Panel
Secure tongue and groove design with hidden fasteners for easy installation that allows for expansion and contraction.

Warrantied for **20** years.

Stronger than other PVC liner panels with thicker inner walls.

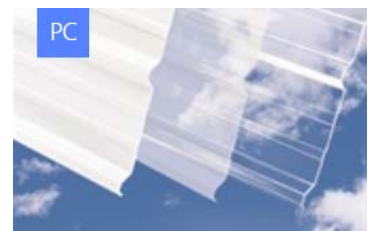

AG-TUF® / AG-TUF® UV

Corrugated PVC Liner Panels for Ag and Industrial Applications

AG-TUF® / AG-TUF® UV PVC products are remarkably durable, lightweight and easy to install. Specifically engineered for agricultural and industrial applications, Ag-Tuf is highly resistant to harsh chemicals, fire, and impact and is easy to clean. See samples at Palram's booth #C3651.

SunSky®: Corrugated Polycarbonate Skylight & Sidelight Panels means no more fiberglass. With up to 20 times

greater impact resistance than fiberglass, Palram's Sunsky has the highest light transmission rates, the lowest yellowing index, the highest load rating and the highest resistance to wind uplift. An ideal daylighting solution, Sunsky also helps increase energy savings and enhance environments with natural light.

SUNSKY®

Corrugated Polycarbonate Skylight & Sidelight Panels for Commercial Applications

Need to match your metal profile? Find the perfect SunSky® profile match with Palram's **Metal Match™** Technology. Palram offers the largest selection of profiles or can custom-match virtually any profile in the market.
