### **Global resinous flooring company launches Texas subsidiary to serve US market**

Resdev Limited, a global provider of commercial and industrial resinous flooring solutions for over 40 years, has recently formed Resin Development LLC, a wholly owned subsidiary, to serve the North American commercial and industrial resinous flooring market.

Resin Development LLC will market the established Pumadur line of urethane concrete flooring systems, providing dedicated solutions for the US market from an operation based in Dallas, Texas.

Visit us at Booth **C0159** to learn more about how Resin Development can provide the right flooring solution at your facility
