

UltraSource[®]
THE NEW STANDARD FOR **INNOVATION**

Cliptechnik Clipping Machines Now Available from UltraSource!

Kansas City, Missouri

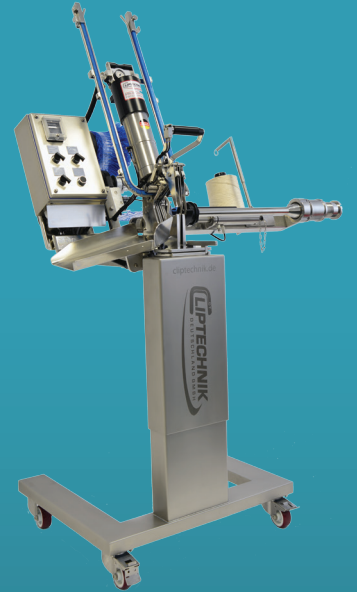

UltraSource has expanded its processing equipment solutions with the **addition of Cliptechnik Clippers from Germany**. We are offering a complete range of clipping machines from single tabletop clippers to fully automatic clippers. Cliptechnik clippers are manufactured to the highest performance standards and can help businesses increase productivity without additional labor.

The **CDC Series Semi-Automatic Double Clipper** is a solidly built machine that promotes safe operation, high productivity and flexibility. The adjustable base of the machine makes it easy to connect with standard vacuum stuffing machines. No matter how you configure this machine, no electricity is required, it is pneumatically driven.

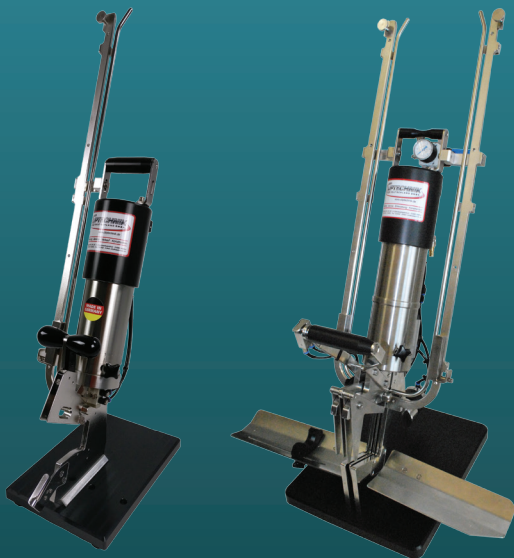

Increase production without increasing labor with the **Fully Automatic Cliptechnik CDC-A Series clipper**. All natural, fiber, cellulose and artificial casings can be processed to single sausages, sausage chains and rings up to 120mm caliber. The electronic control system allows you to adjust the parameters to the desired product in seconds.
