

VAL-CO offers educational talks in booth C10753

This year, VAL-CO will offer short educational presentations about hot industry topics. The V-Talks will occur at 10:00, 11:00, 1:00, and 2:00 in booth C10753 on Tuesday February 12 and Wednesday February 13.

To showcase the expertise of our personnel, each talk will be given by a different member of the team. V-Talks will cover topics including improving fan performance, nesting for broiler breeders, and keeping floors dry in antibiotic-free operations.

Talks will be kept to no more than ten minutes and PA Dutch refreshments will be offered! Each attendee will be entered into a drawing to win a \$50 Bass Pro Shops gift card at each talk – 8 chances to win!

	Tuesday	Wednesday
10am	<i>Antibiotic-Free: Drier Floors Are Possible</i>	<i>5 Minutes to Better Fan Performance</i>
