

FOR IMMEDIATE RELEASE

Grundfos Set to Showcase Expertise in Protein Processing at IPPE Show

[Lenexa, KC, Jan. 15, 2024] – Grundfos, a global leader in advanced pump solutions, is excited to announce its participation in the upcoming International Production & Processing Expo (IPPE) show, where the company will highlight its extensive expertise in the Food and Beverage (F&B) space, specifically focusing on protein processing applications.

At the IPPE show, Grundfos aims to demonstrate its commitment to innovation and sustainability through the introduction of its new dosing skid systems and revolutionary 4D dosing pumps. These cutting-edge solutions exemplify Grundfos' dedication to providing state-of-the-art technology that meets the evolving needs of the F&B industry.

The spotlight will also be on Grundfos' CRE and CUE pump series, showcasing their exceptional performance and reliability in various applications within the protein processing sector. The company invites attendees to explore these products and witness firsthand how Grundfos continues to set new standards in pumping solutions.

One of the major highlights of Grundfos' presence at IPPE will be the unveiling of an exclusive video case story featuring Virginia Poultry. This case study will provide insights into Grundfos' collaboration with industry leaders, demonstrating the successful implementation of Grundfos solutions in real-world scenarios.

In addition to the dosing skid systems and 4D dosing pumps, Grundfos invites visitors to explore its Hydro HP and Hydro MPC systems. The interactive content available at the Grundfos booth will offer a comprehensive understanding of these systems' capabilities and how they contribute to enhancing efficiency and sustainability in protein processing operations.

Grundfos representatives will be available at the IPPE show to engage with attendees, discuss industry trends, and answer any questions about the showcased products. The company is confident that its participation in the event will further solidify its position as a trusted partner for innovative and reliable pumping solutions in the F&B sector.

Visit Grundfos at Booth C44175 during the IPPE show to experience the future of protein processing technology.

About Grundfos: Grundfos is a global leader in advanced pump solutions, dedicated to pioneering innovative technologies that drive sustainability and efficiency in various industries.
