B2B SERVICES:

The Certified Humane® program is an animal welfare audit and certification program that provides inspection, certification and a labeling program for meat, poultry, egg, and dairy products from animals raised under our Animal Care Standards. <https://certifiedhumane.org/our-standards/>

The Certified Humane® program is driven by farmers and industry professionals committed to animal welfare, scientists dedicated to studying animals, and shoppers demanding kinder, more ethical products. The program verifies, through on-farm and processor's inspections, that Animal Care Standards are met in the livestock and poultry supply chains. Certified Humane® services for your business provide credibility from 3rd party inspections, better product recognition in the marketplace, and consumer confidence in kinder farm animal practices. Certified Humane® is the leading non-profit certification organization dedicated to improving the lives of farm animals in food production from birth through slaughter. The goal of the program is to improve these animals' lives by driving consumer demand for more responsible farm animal practices. The Certified Humane® label on a product means that precise, and objective standards for farm animal treatment have been met.
