

FOR IMMEDIATE RELEASE

Eurofins Presents: Artificial Intelligence - The Next Wave of Innovation for Animal Feed and Livestock Production

Eurofins, a global leader in scientific testing services, is excited to unveil a thought-provoking presentation on the transformative impact of Artificial Intelligence (AI) in the animal feed and livestock production industry. This informative 20-minute session promises to delve into the myriad applications of AI, demonstrating how it revolutionizes processes, enhances animal health, and contributes to the overall welfare of livestock.

Key Takeaways:

- **Better Data Analysis:** Discover how AI enables advanced data analysis, providing valuable insights that lead to informed decision-making and improved operational efficiency.
- **Streamlined Supply Chains:** Explore how AI technology streamlines supply chains, optimizing processes and ensuring a more seamless and efficient flow in animal feed and livestock production.
- **Increased Efficiency:** Learn how Eurofins, at the forefront of innovation, leverages AI to boost overall efficiency, leading to cost reductions and enhanced sustainability.

Attendees can expect Eurofins to showcase its commitment to cutting-edge solutions in product and process support innovation. The presentation will address the industry's key challenges while highlighting the advantages of incorporating AI in animal feed and livestock production.

Event Details:

- Date: Wednesday, January 31st

- Time: 10:00 a.m.

- Location: Hall C, Theater C14185

To schedule a meeting or gain additional insights, interested individuals are encouraged to add the event to their show planner and contact Eurofins through the following link:

Eurofins experts will also be available at booth 25155 in Hall C for further discussions and inquiries. Don't miss this opportunity to stay ahead of the curve in the rapidly evolving field of AI in animal feed and livestock production.

"We're excited to share interesting and informative insights on how to overcome challenges with medicated livestock feed and animal health testing, project and study solutions at IPPE", David W Riggs, BS, PE, President of Eurofins SFA Laboratories, Inc. which includes the premier Animal Health testing lab based in Indianapolis. "We have created state-of-the-art facilities, methods, project/study approaches with world-class service to enable our clients to meet ever-changing regulatory and manufacturing challenges."
