

DeLong's Gizzard Equipment to Unveil Enhanced Automatic Gizzard Peeler (APC3218) at IPPE 2025

Macon, Georgia – DeLong's Gizzard Equipment is excited to announce the debut of its latest innovation, the **Automatic Gizzard Peeler (APC3218)**, featuring advanced safety enhancements. The unveiling will take place at the International Production & Processing Expo (IPPE) 2025, scheduled for January 28-30 at the Georgia World Congress Center in Atlanta, Georgia.

The APC3218 is the newest addition to DeLong's line of industry-leading poultry processing equipment. Designed to meet the needs of both chicken and turkey processors, this high-performance machine sets a new standard in efficiency and safety. With the capacity to handle over 140 gizzards per minute and a peeling efficiency of up to 90%, the APC3218 ensures top-tier performance without compromising product quality. Its advanced engineering minimizes product damage and maximizes yield, making it an essential tool for modern processing operations.

Enhanced Safety Features

The APC3218 model is engineered with industry-leading safety protocols to protect your workforce and maximize efficiency. Key safety features include:

- **Easy-to-Clean Grate:** Ensures hassle-free sanitation, maintaining high hygiene standards.
- **Safety Switches on In-Feed Chute:** Provides better handler security during operation.
- **Safety Switches on Machine Top:** Facilitates smoother and safer operation.

These innovations underscore DeLong's commitment to safety and efficiency, ensuring your operations run smoothly while safeguarding your most valuable asset—your team.

High-Performance Specifications

Designed to meet the rigorous demands of modern poultry processing, the APC3218 offers:

- High Throughput: Capable of handling over 140 chicken gizzards per minute, making it suitable for both chicken and turkey processing.
- Precision Peeling: Achieves up to 90% gizzard peeling efficiency without causing damage, ensuring product quality.

Join Us at IPPE 2025

DeLong's invites all industry professionals to visit [Booth #C19162](#) at IPPE 2025 to experience the APC3218 firsthand. Our team of experts will be available to demonstrate the machine's capabilities and discuss how it can enhance your processing operations.
