AgPack Nutrition LLC Acquires AOK Transportation Business

On March 18TH, 2024, AgPack Nutrition LLC acquired AOK Transportation in Portsmouth, VA. This acquisition further diversifies AgPack LLC and continues its rapid growth in its first 5 years of business. This is AgPack's 2nd major acquisition since its inception, following its acquisition of H.J. Baker's Animal Health & Nutrition Division in Q1 of 2021

AgPack now consists of 4 fully operational facilities across the United States of America, located in: Disputanta, VA; Sanford, NC; Westville, OK; and Portsmouth, VA all strategically located to its customers, suppliers, railways, and ports.

AOK Transportation is a 3rd Party transloading, packaging, storage, production, and logistics company. With very convenient access to the Port of Norfolk in Virginia, the facility accessibility and location make it a major asset for AgPack Nutrition LLC's business model as the young company continues to solidify itself in the US Agricultural Sector.

In addition to the new offerings via AOK Transportation, AgPack Nutrition LLC is a High Quality Animal Feed Additive producer that prides itself on quality, customer satisfaction, packaging, and strong customization flexibility based on a customer by customer basis doing business in domestic and international markets.

About AgPack Nutrition LLC

AgPack LLC is dedicated to enhancing food availability and quality through efficient feed solutions for poultry, dairy, swine, and aquaculture. Committed to sustainability, AgPack helps feed more people using fewer resources. The company values strong customer and supplier relationships, leveraging industry knowledge to benefit all stakeholders. With four strategically located manufacturing plants, AgPack ensures high quality and consistency in its protein concentrates.
