

## Blachford Achieves Safe Feed / Safe Food Certification

Effective July 2022, Blachford is pleased to announce that our Mississauga, Ontario production facility is SAFE FEED/SAFE FOOD (SF/SF) certified to manufacture CALCIUM STEARATE, meeting FOOD SAFETY MODERNIZATION ACT (FSMA) requirements, incorporating HACCP and GMP practices.

Blachford's CALCIUM STEARATE products impart Waterproofing and Anti-Caking properties to Feed applications including Dry Feeds, Pellets and Salt Licks.

All Blachford products are non-GMO (genetically modified organisms), pose no risk for BSE (bovine spongiform encephalopathy) and are free of chick-edema factor.

Blachford offers truckload, pallet and less than pallet service across North America.

Please visit us at IPPE 2023, booth B8468 or contact Scott Gilliard at 647 588-6194 or [sgilliard@blachford.com](mailto:sgilliard@blachford.com) to discuss how CALCIUM STEARATE can be of benefit to you and your organization!
