

**For Immediate Release**

**January 2022**

**East Iowa Plastics offers four *PAKSTER™* Air Inlets to best suit your individual needs!**

Whether it is for the standard retrofitting of older buildings or the new wider constructed buildings,  
**WE'VE GOT WHAT IT TAKES!**

DF-48: 4 ft. Wall Mount Inlet

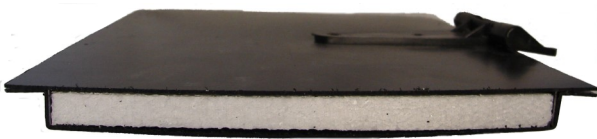

DF-48: 4 ft. Ceiling Mount Inlet

DF-48W2: 4 ft. Deep Angle Ceiling Mount Inlet

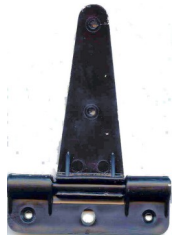

DF-60: 5 ft. Wall or Ceiling Mount Inlet

- ☒ Rigid Construction
- ☒ Insulation board

- ☒ East Iowa Plastics door-seal covers the gaps and reduces air & light infusion.
- ☒ The door is bonded together by sonic welding, to insure many years of useful product life.
- ☒ The frame is angled to provide maximum ventilation with minimal opening.
- ☒ Air is immediately directed upward to the center of the house for superior circulation.
- ☒ Self-lubricating hinges

Self-lubricating hinges

Join us at Booth B5717 to view our entire line of *PAKSTER™* products, including our “Phillips” Egg Flats, Rectangular and Contour Feeder Lids, Air Inlets, Sun Deflectors and Light Shields.
