**XT-ALIGALI**

**ALLICIN**

**DESCRIPTION**

**XT-ALIGALI** is synthetic garlic essential oil powder, water soluble oil emulsion products with strong garlic odor, mainly used in feed additive for protecting the aquaculture, poultry and livestock against the disease.

The water-soluble garlic essential oil emulsion can be used for water spraying or mixing. It has a killing effect on bacteria and fungi viruses. It kills water pathogens and penetrate into animal skin. It has special effects on skin diseases for treating fish, and can also stimulate epidermal cell regeneration and promote skin tissue growth. In addition, there are also effects of attracting aquaculture and promoting animal growth. It is widely used as an antiseptic and can also be the substitute for antibiotics in feed.
