

Hangzhou De Mark Industrial Co Ltd

PRESS RELEASE

Date: December 19, 2022

Booth: **B5703**

Hangzhou DE Mark Industrial Co Ltd supplies a broad range of veterinary active pharmaceutical ingredients (APIs), feed ingredients, supplements and additives worldwide for farming and companion animals.

The medicated and nutritional premix are supplied based on OEM/ODM manufacturing. These premixes processed by innovative technology are proven to achieve improved stability, palatability and efficacy. Here are our technologies and producing capacity:

Solid solution : 500 MT/a
Coated microparticle : 500MT/
Enteric coating : 500MT/a
Sustained-release microencapsulation: 1000MT/a

All the products in our supply chain are GMP/ISO-certified.

At IPPE 2023 exhibition, we will show you the below featured products:

MagicoH Pellet Binder

All purpose pellet binder improves pelleted feed's sensory and processing quality by increasing hardness, reducing dust rate in poultry and piglet feed; by improving water stability and resistance in shrimp feed and sinking fish feed.

Macleaya Cordata Extract

It's a plant extract containing active ingredients of sanguarine which is proven beneficial to enhance the animal production performance by anti-inflammation and regulating the balance of intestinal flora.

Schizochytrium Powder

It's commercially fermented Schizochytrium algae with DHA content of 18%.

It's a natural source of DHA supplement to produce DHA-enriched meat (salmon/shrimp), egg, milk and dairy products.

Welcome to drop by our booth no. B5703 for more information.

WE CARE FOR YOUR COST-QUALITY CONCERN.
