### Insta-Pro Intl Launches New Equipment to Address Growing Demand for Meat, Milk & Eggs

**GRIMES, Iowa, USA; June 14<sup>th</sup>, 2021 – At Insta-Pro International** ("Insta-Pro" or "the Company"), we build solutions that allow customers to nurture every bit of good from oilseeds; so, when customers asked for larger equipment, we listened.

“Our new 4-ton-per-hour ExPress<sup>®</sup> processing solution is cost-efficient and compact, integrating our model 9000 extruder and model 8800 oil press, while using 65% less square footage when compared to other Insta-Pro systems.” Karl Arnold, V.P. Sales & Marketing.

The new precision-crafted equipment provides processors the solution they need to keep up with growing consumer demands for meat, milk and eggs. Engineered for decades of use and minimal downtime, our animal-first solutions are backed by over 50 years of independent research to ensure our equipment nurtures every bit of good from oil seeds.

“At Insta-Pro; our team is committed to our customers’ success. Innovation and teamwork are the key drivers to our success. The new 4 tph processing line is a direct result of this work.” Jonathan Kingsbury, President & CEO.

Stop by booth B6829 to learn more about our new model 8800 extruder and 4 tph processing line.

**ABOUT US:** Based in Grimes, Iowa, Insta-Pro International develops industry-leading equipment for producing chemical-free livestock and poultry feeds, vegetable oils and soy food products. We partner with university and independent researchers to optimize nutritional value for ultimate animal performance; and are committed to leading the industry around the world in continuously improving quality, output and efficiency.
