

Mérieux NutriSciences Announces Acquisition of Dyad Labs

Chicago, IL, 08 Dec 2021 – Mérieux NutriSciences, a world leader in Food Safety and Quality, announces today the acquisition of Dyad Labs, a value-added solutions provider, dedicated to the dietary supplements industry.

Founded in 2008, Dyad Labs, located in Salt Lake City, Utah contains six separate lab areas with over 20,000 sq. feet of dedicated laboratory space. Dyad Labs provides specialized chemistry and microbiology testing services to the Nutraceutical, Food and Beverage industries. Its history to provide tailored value-added solutions and long-standing partnerships with customers makes them an ideal fit.

This acquisition diversifies the service offering and expands Mérieux NutriSciences footprint in the US to better serve the dietary supplement market.

“We are enthusiastic about having the talented team at Dyad Labs join us and welcome them to our network of laboratories,” said Sébastien Moulard, President of Mérieux NutriSciences, North America. “This acquisition supports our position as a major player in the dietary supplement market and strengthens our presence in the United States.”

“Dyad’s expertise in supplement testing for active lifestyle brand manufacturers combined with Mérieux NutriSciences’ dedication to protecting consumers’ health throughout the world will deliver a wide range of solutions to the food and nutrition industries,” stated Jeff Reynolds, Founder of Dyad Labs. “This will allow us to expand our services and expertise to better support our customer’s needs and enable their growth, while providing meaningful opportunities for Dyad team members.”
