## Niverplast To Showcase Its Industry Leading Trio of Food Packaging Machines at IPPE Expo 2022

### Niverplast's CombiPlast, EasyPlast and Varioseal Food Packaging Machines Help Manufacturers Maintain Their Competitive Edge While Maximizing Profits

Boston, MA – December 1, 2021 – Niverplast, a worldwide leader in food packaging equipment is pleased to announce they will be exhibiting at the International Production & Processing in Atlanta from January 25-27, 2021. The people at Niverplast are experts in helping food manufacturers improve their operations, enhance time to market capabilities, and finding ways to reduce overall manufacturing cost.

Knowing that most typical food processing plants run an average of 14 hours a day, every day, equipment failure is by far the most common cause for downtime. Everyday food manufacturers are feeling the heat to hit their production targets in an ever increasingly competitive marketplace. Niverplast knows that a single day of downtime can cost a company much more than just money, it can result in disappointed customers, missed deadlines and logistical nightmares.

“As a leader in food packaging equipment, we understand how devastating equipment failures can be for food manufacturers,” stated Mark Finneran at Niverplast USA. “That’s why we know that we must provide our customers with the best equipment that focuses on reliability and maintainability that will optimize their input and output of their products.”

Niverplast's CombiPlast, EasyPlast and VarioSeal solutions are examples of innovated machines that that help food manufacturers maintain their competitive edge while maximizing profits.

#### **COMBIPLAST**

- The CombiPlast combines box erecting and bag inserting technology in one compact solution with the ability to speed up to 15 boxes per minute. The CombiPlast automatically takes charge of your packaging process by erecting each box and automatically inserting bags perfectly each time resulting in a much faster and safer process than manual production resulting in less downtime.

## **EASYPLAST**

- The EasyPlast is a high-quality packaging solution for automatic bag inserting for either crates or boxes. EasyPlast provides 24-hour non-stop bag-in-box lining for your products. EasyPlast is fast, inserting up to 25 bags per minute with perfect bag placement each time, resulting in a much faster and safer process than manual production resulting in less downtime.

## **VARIOSEAL**

- The VarioSeal is a high-quality packaging solution for automatic uncuffing and sealing of a lined box. VarioSeal provides continuous automatic operation up to 10 boxes or crates per minute. VarioSeal incorporates fully motorized adjustments for customer's range of box sizes and has the smallest footprint for bag sealing, case closing and taping in the industry. The result: your product safely packed in a closed bag and closed box! Ready to be transported to your customers.

All three Niverplast machines provide the following benefits & features:

- 24 Hour Non-Stop Production
- Easy and Simple to Operate
- Suited for Wide Variety of Box Sizes & Crates
- Operates Stand-Alone as Well as in Any Automatic Production Line
- Quick Size Change Over
- Reliable, Low-Maintenance and Cost Efficient
- Small Footprint
- Lowest Total cost of Ownership

“Our goal at Niverplast is to develop the best high-quality automatic bag-in-box solutions for the bread, meat, and seafood industry. The CombiPlast, EasyPlast and VarioSeal are the best solutions on the market today for bag and box automation for manufacturers,” said Mark Finneran at Niverplast USA. “Our line of bag and box machines are developed to be more efficient and reliable to reduce manufacturing downtimes as much as possible.”

Come meet Niverplast at booth #BC9224 at The Georgia World Congress Center from January 25-27 in Atlanta.

## **About Niverplast®**

Headquartered in the Netherlands and founded in 1986, Niverplast is a worldwide leader in the food packaging equipment industry with our North American sales and service facility located in Gainesville, GA.
