## **W.P. Law, Incorporated to Exhibit the Barmesa ET6-U Pump at 2022 IPPE Expo**

W.P. Law, Inc. has announced that it will be participating in the world's largest annual poultry, feed and meat technology tradeshow in Atlanta, GA. The International Production and Processing Expo will happen between January 25<sup>th</sup> and 27<sup>th</sup> at the Georgia World Congress Center.

A leading supplier of fluid handling equipment, W.P. Law, Inc. will be showcasing the Barmesa ET6- U. The self-priming, solids-handling centrifugal pump is designed for municipal and industrial applications.

Terry Brady, W.P. Law, Inc. president says, "We want to provide our customers in the poultry processing industry, a solids-handling pump that performs well in what is a demanding application. Similar to the Weinman-Midwhirl 6W-2511, this pump has a uniquely designed impeller, which can effectively pump large solids without clogging."

Brady continued, "We are excited to showcase this state-of-the-art pump at the IPPE Expo. We think consumers will be impressed by its capabilities as well as the short lead time and competitive pricing that we offer."

For more information about the Barmesa ET6-U pump, visit, [www.barmesaet6u.com](http://www.barmesaet6u.com) and Booth #C13216.

Barmesa ET6-U Pump details:

- Suction and discharge size 6 inches.
- Maximum solids size 4 and ¼ inches.
- Capacities to 1,100gpm, heads to 115 feet.

### **About W.P. Law, Inc.**

W. P. Law, Inc. is a leading supplier of fluid handling products including pumps, piping, valves, control systems, and custom fabrication. Their staff can assist in the design and application of pump stations, effluent spray fields, and system automation.

### **About Barmesa Pumps, LLC**

Barmesa Pumps LLC started operations in 1953, manufacturing small self-primer pumps, jet pumps and end suction centrifugal pumps for the rural market.

During the 1970's, new additions were made to the line of products and we started manufacturing submersible solids handling pumps as well as grinder pumps.

Today after more than 60 years, we have manufacturing facilities & distribution centers across America, and an extensive distributor network. Our State of the Art manufacturing facilities have modern CNC machinery as well sophisticated design and test capabilities. Barmesa serves markets such as marine, commercial, municipal, wastewater, water, industrial, construction, utility, chemical, OEM, irrigation, dewatering flood control, fire protection, as well as many other applications.

Our privately held family business is committed to offer an extensive variety of products with the best quality standards and on-time deliveries. We are proud to say "Quality Pumps Since 1953."
