Project: Cooperative Farmers Elevator
Swine Feed Mill
Ocheyedan, Iowa

Younglove Construction, L.L.C., of Sioux City, Iowa, provided engineering, design, and construction services to Cooperative Farmers Elevator for their 15,000-ton-per-week feed milling facility in Ocheyedan, Iowa. Key features include:

- 2,069 tons of ingredient storage in 26 bins.
- 12-ton batching and mixing system.
- Single 50-ton-per-hour pelleting line.
- Space for future second and third 50-ton-per-hour pelleting lines.
- Dual finished feed loadout driveway.
- 2,336 tons of finished feed storage in 24 bins.
- 12,500-cubic-foot-per-hour receiving (250 tons per hour).
- One hammermill grinding system (40 tons per hour) and two rollermill grinding systems (52 tons per hour each).

Providing outstanding commitment to service and quality for more than 120 years, Younglove Construction is the premier builder of agricultural and food industry facilities. Younglove’s experienced and dedicated team of designers, engineers, project managers, and workers builds enduring value and trust through continuous process improvement based on safety and quality, resulting in outstanding customer satisfaction.
